

ALLWOOD
Luxury Hardwood Flooring

MADRID MARBELLA LONDON

"Your floor is not just something you walk on. It is something you spend nearly every waking moment on, and it defines how both you and your visitors feel about your home and business. Whether you are trying to create a mood of simplicity, futuristic modernism, or classical elegance, your flooring sets the tone."

C. Iglesias, CEO Allwood

The best friend in the land of man is the tree. When we use the tree with the respect and prudence , we have one of the greatest resorces on earth

"Frank Lloyd Wright"

Engineered Hardwood Flooring 2 - Layer Construction

More stable and humidity resistant in comparison to that of solid wood, engineered hardwood does not shrink or expand as much as the solid wood, making it resistant to warping and cupping. Ideal for below-grade installations where slight dampness is common. ALLWOOD engineered flooring can be used anywhere inside. Our engineered hardwood can be installed over radiant heating systems, in bathrooms and even in laundry rooms. With a 4 mm or 6 mm dry sawn top layer providing a great resistance to everyday wear-and-tear, our engineered hardwood flooring comes with a lifetime warranty.

11 mm to 15 mm phenolic birchplywood core layer

PRODUCT INFORMATION

TOP LAYER

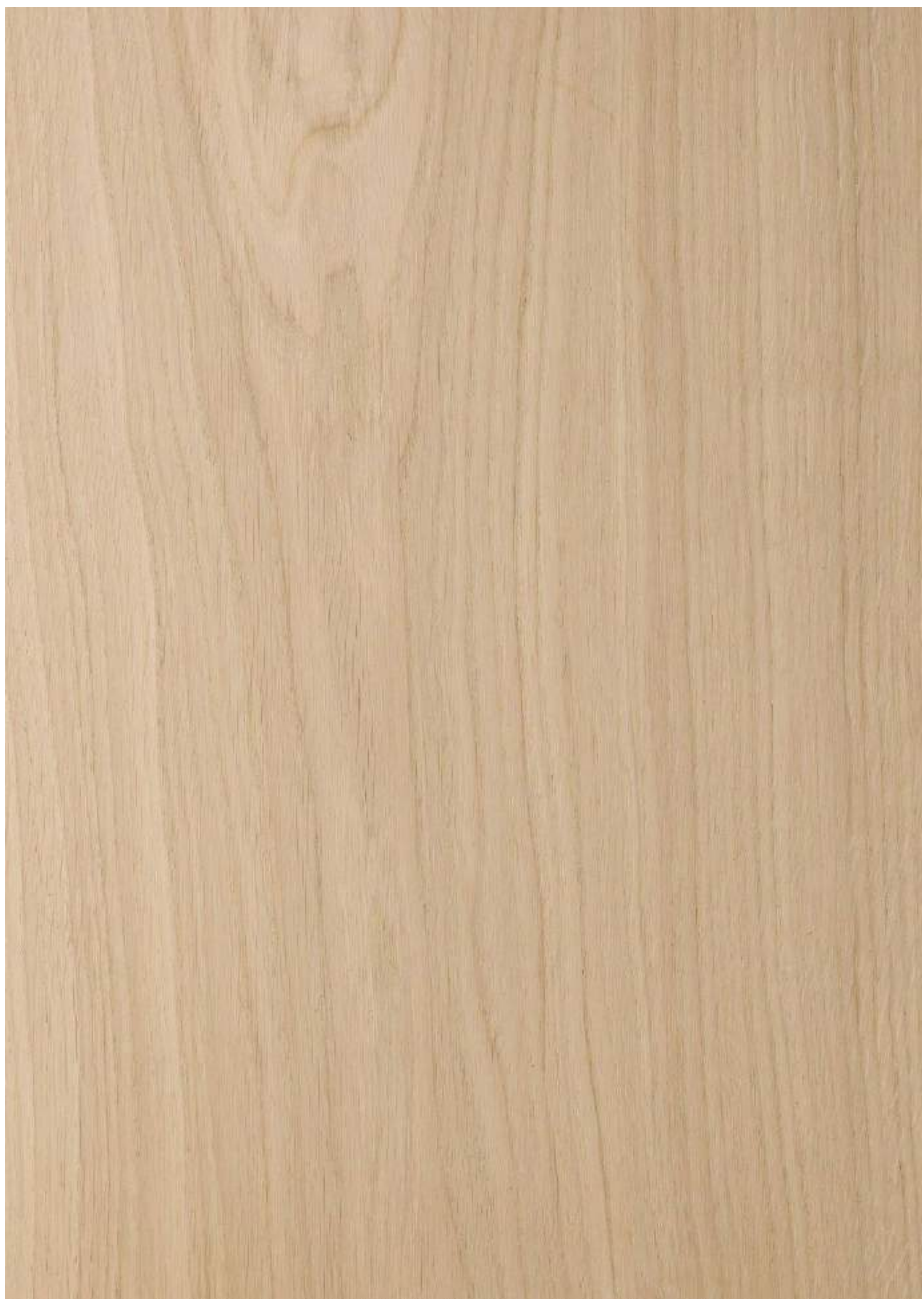

The Top Layer (lamella) is made of dry-sawn solid hardwood and is available in different wood species, surface treatments, and finishes.

PROFILE

Tongue and Groove

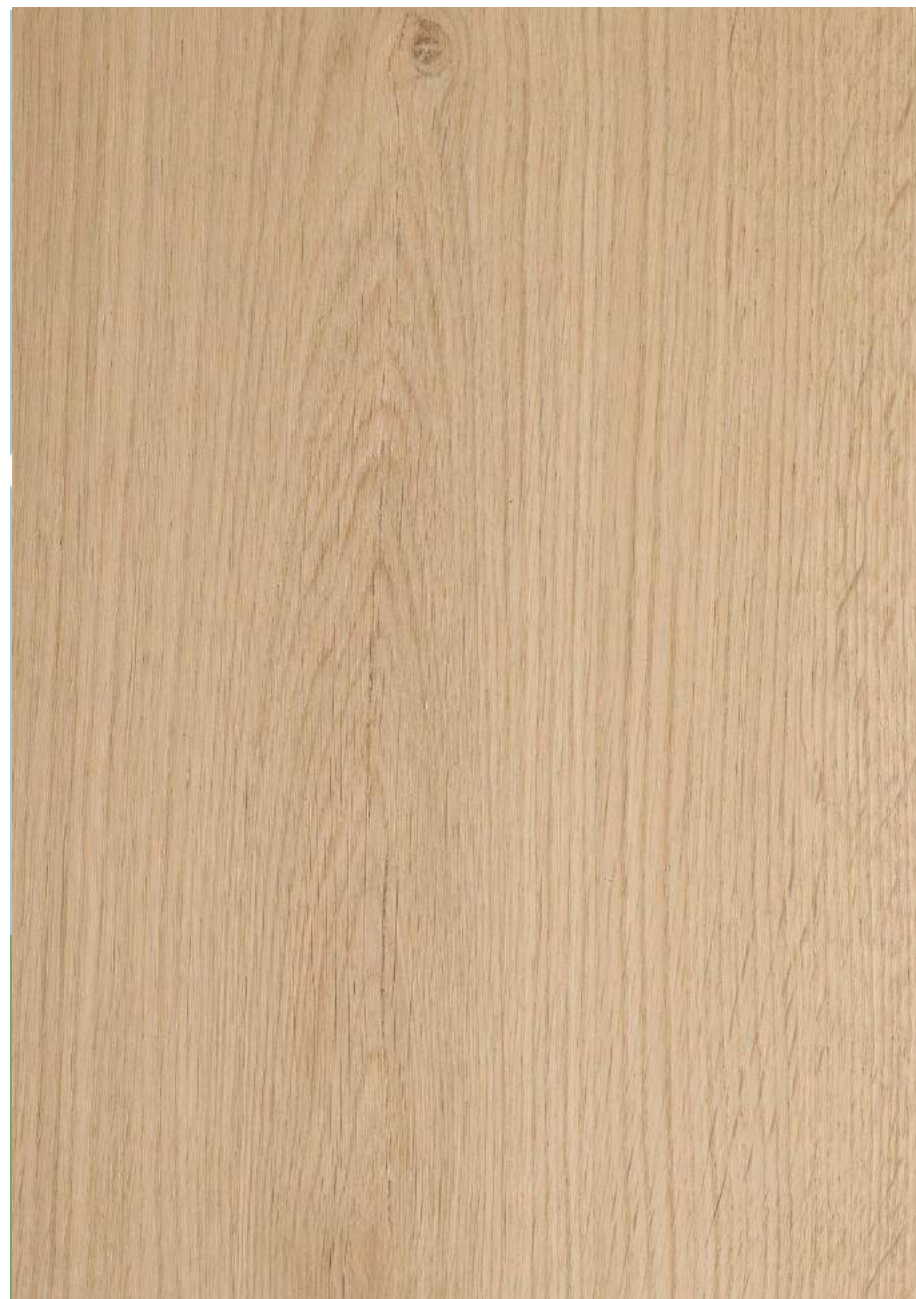

BOTTOM LAYER

This layer is made of water resistant Baltic birch multiplex plywood. Wood Layers are positioned with their grains in opposite directions at 90° angle to minimize expansion and contraction under the influence of humidity and temperature changes. Plywood is three quarter sawed for an even better stability and lower wood tension.

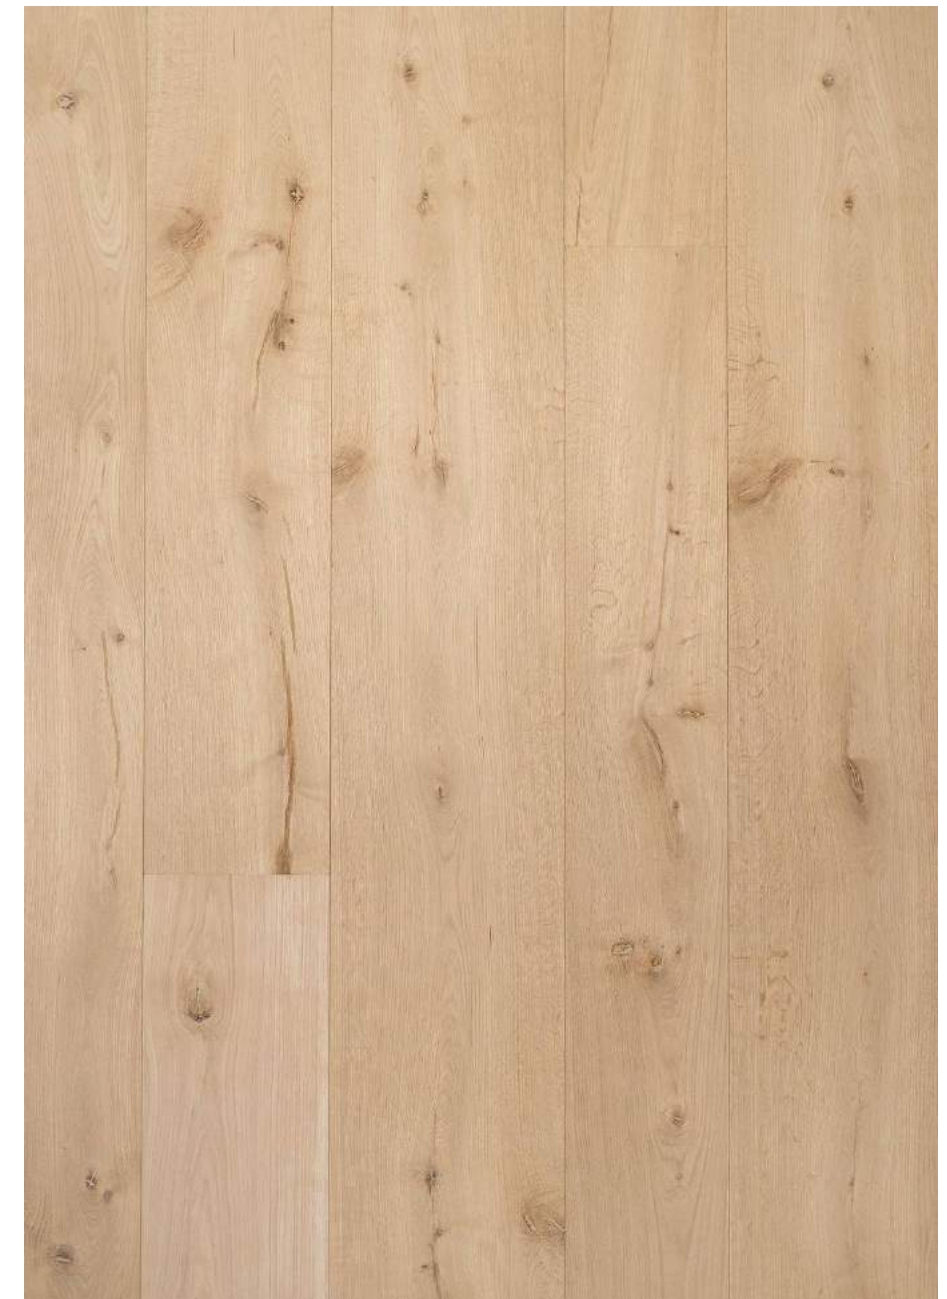

SELECT PREMIUM

This is a premium grade. The woods selected are defect and split free. Wood has uniform, characteristic colour, without significant changes. there are no restrictions for a wood pattern.

SELECT CLASSIC

A classic and the most popular grade. Significant discoloration is allowed and to be expected for this grade. No restrictions for internal sapwood.

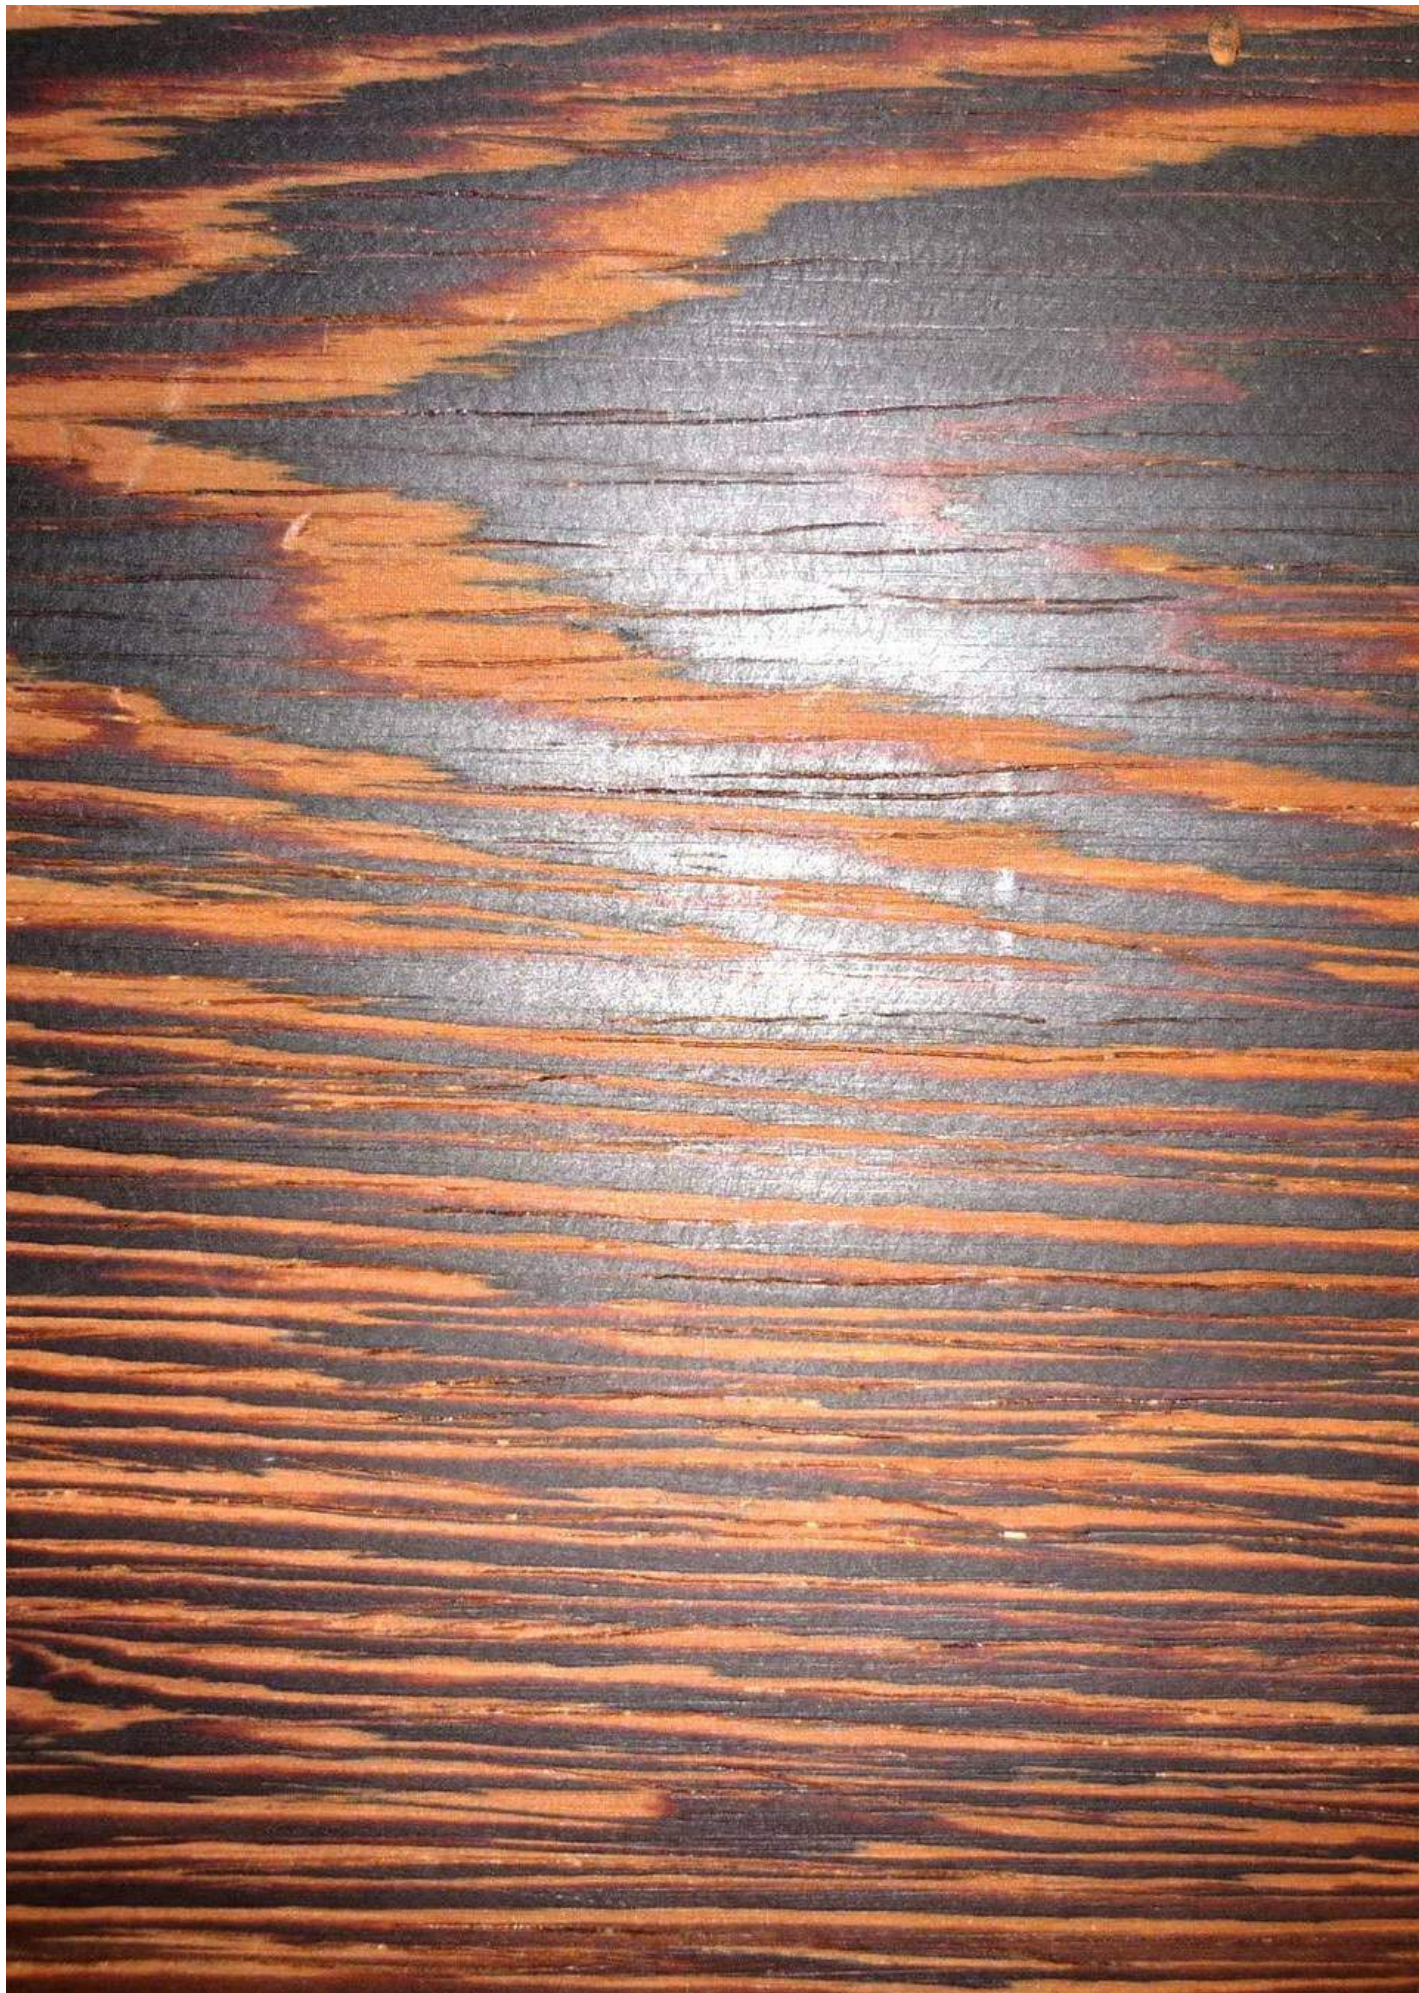

RUSTIC

A grade characterized by wood pattern. Discoloration and internal sapwood is permitted without restrictions

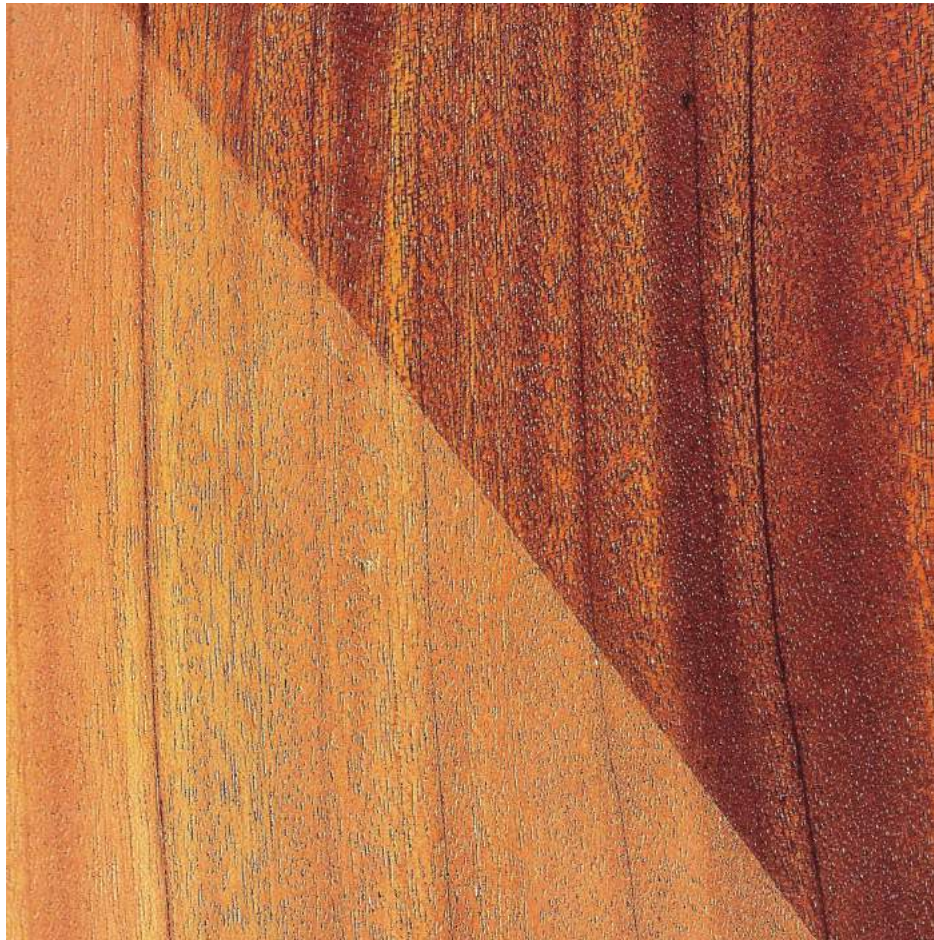

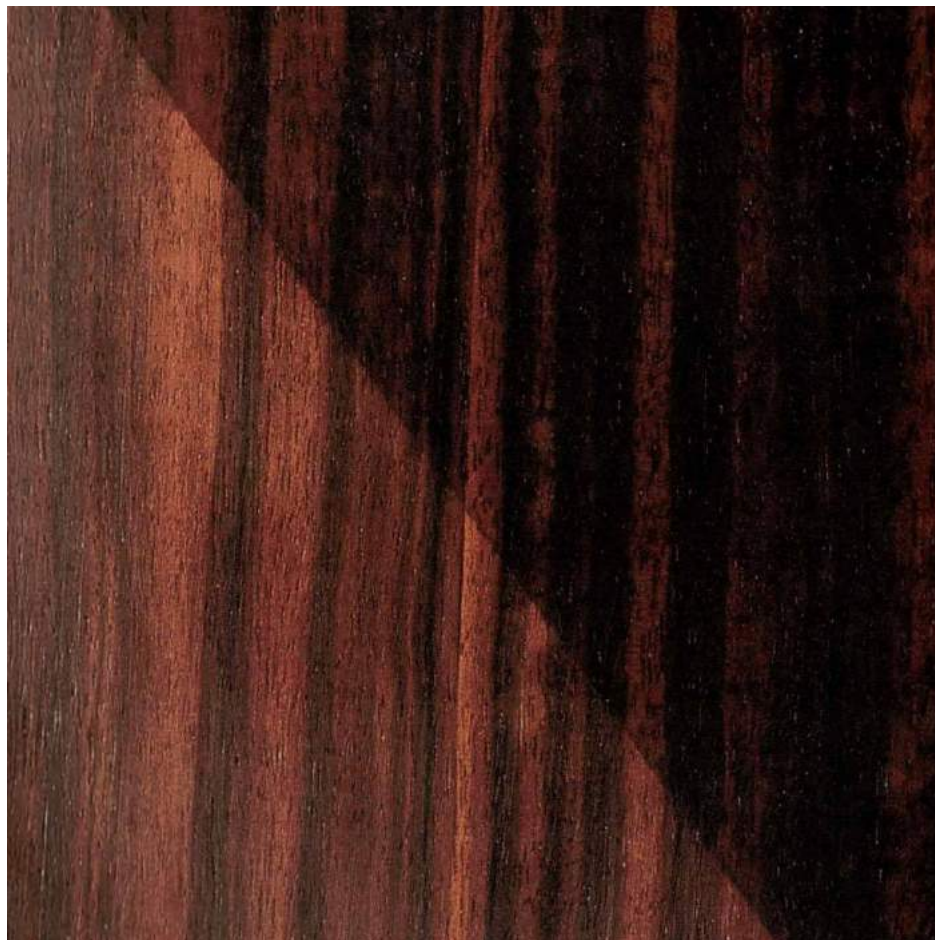

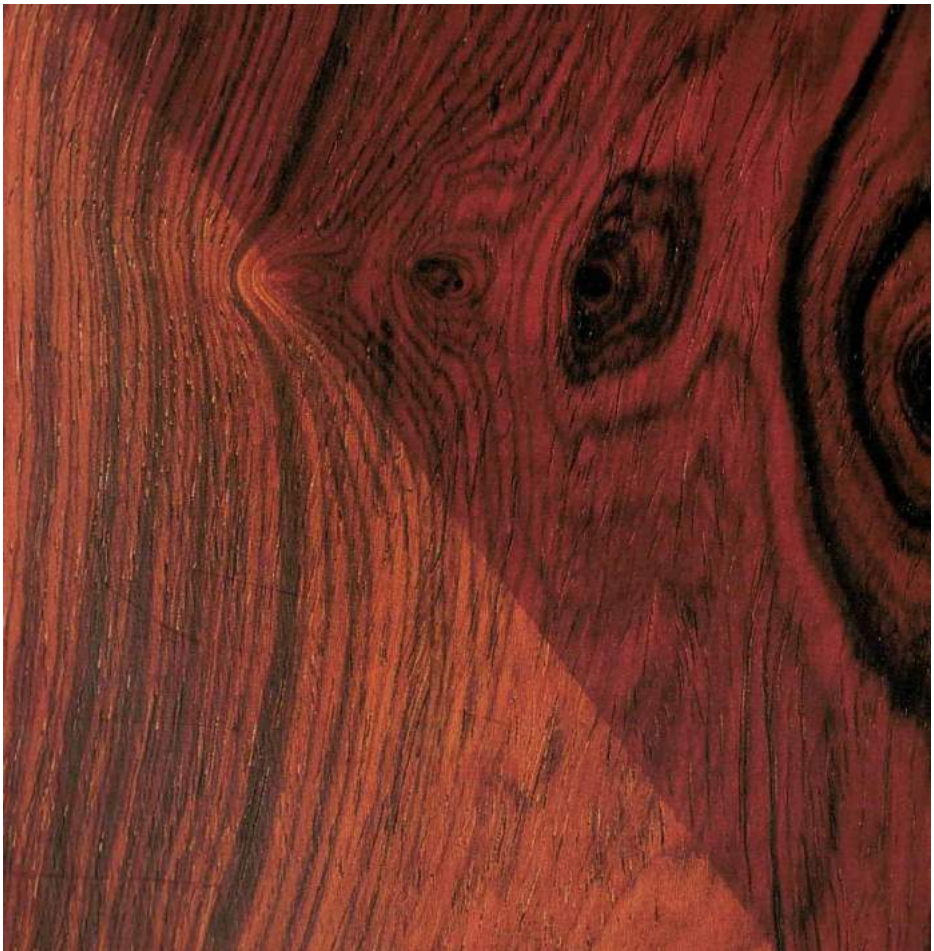

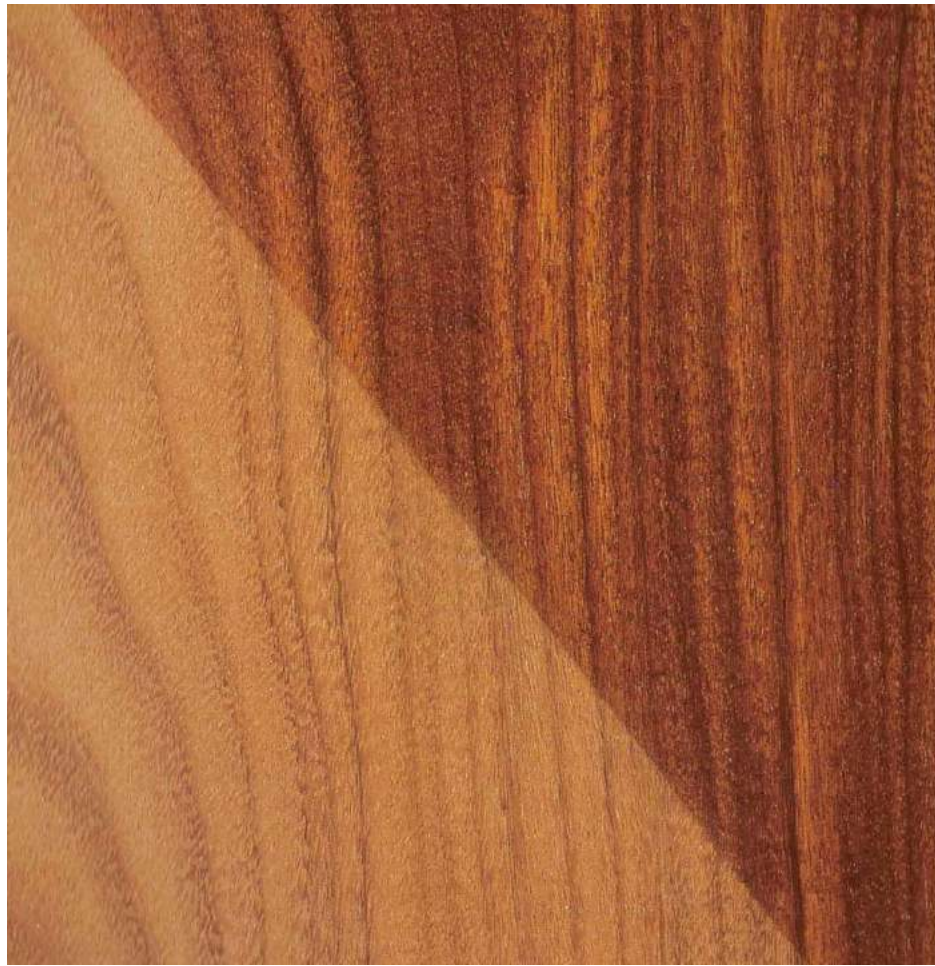

And **VERY RUSTIC**

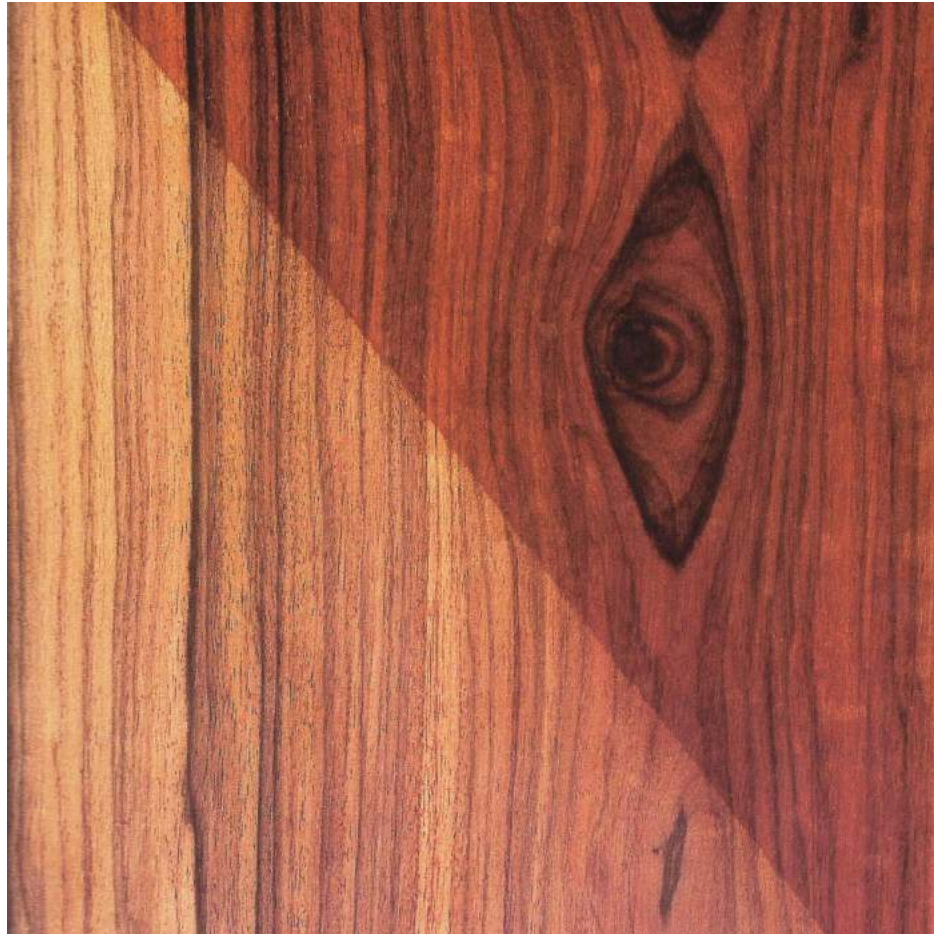

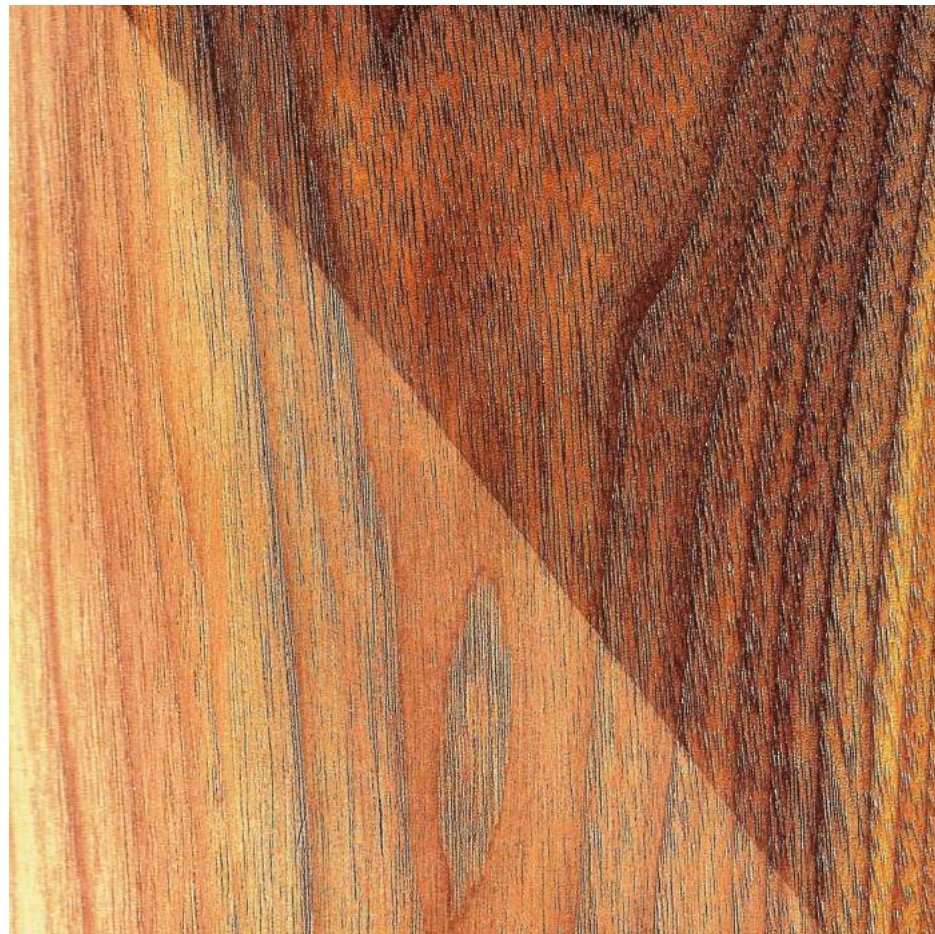

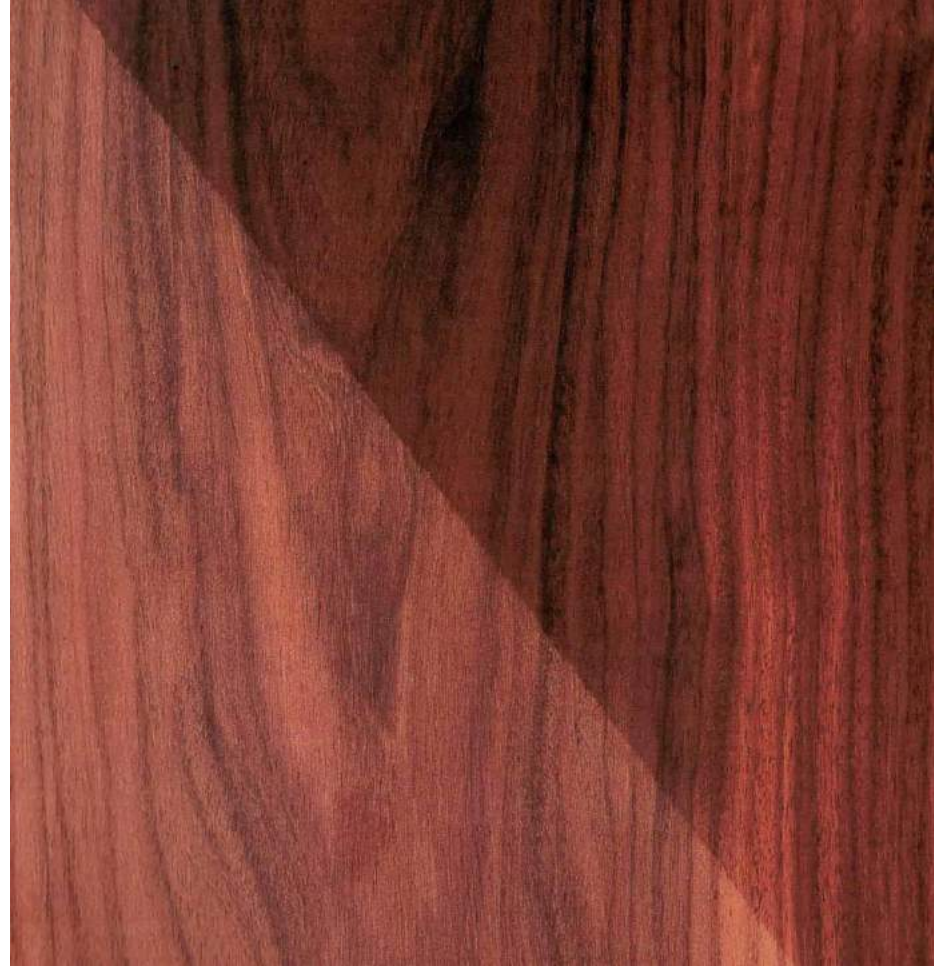

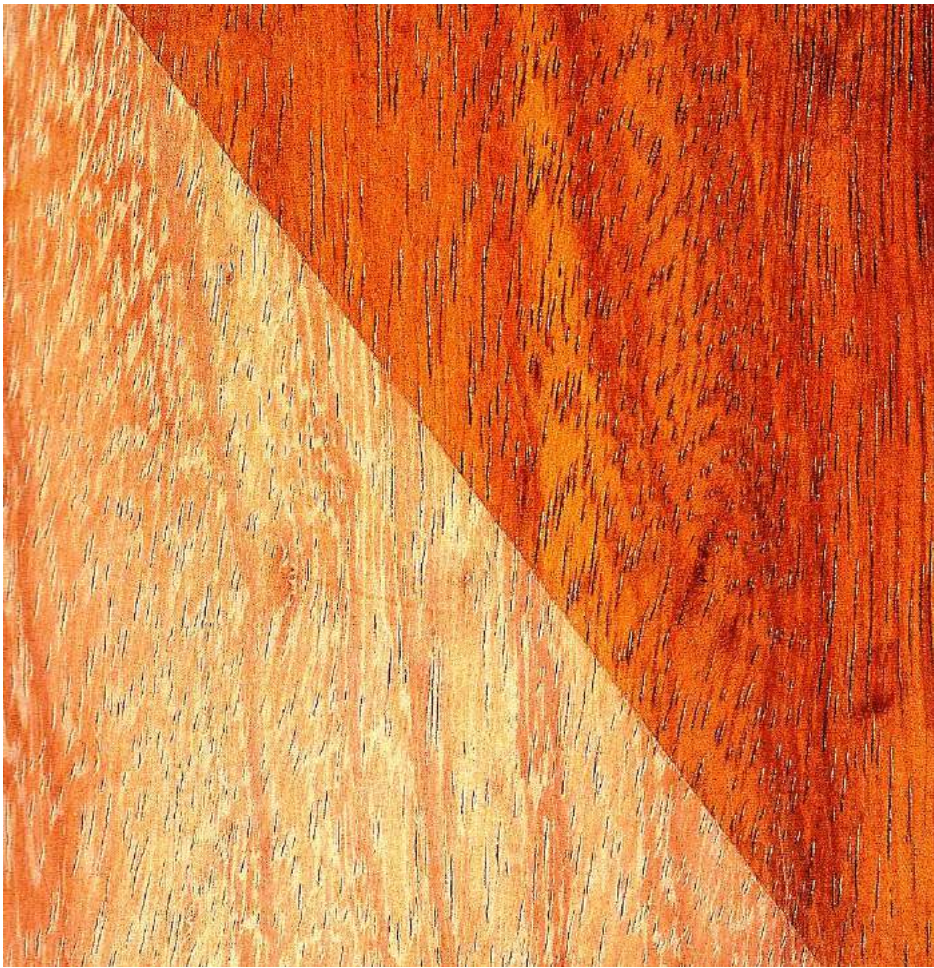

This layer is made of water resistant Baltic birch multiplex plywood. Wood Layers are positioned with their grains in opposite directions at 90° angle to minimize expansion and contraction under the influence of humidity and temperature changes. Plywood is three quarter sawed for an even better stability and lower wood tension.

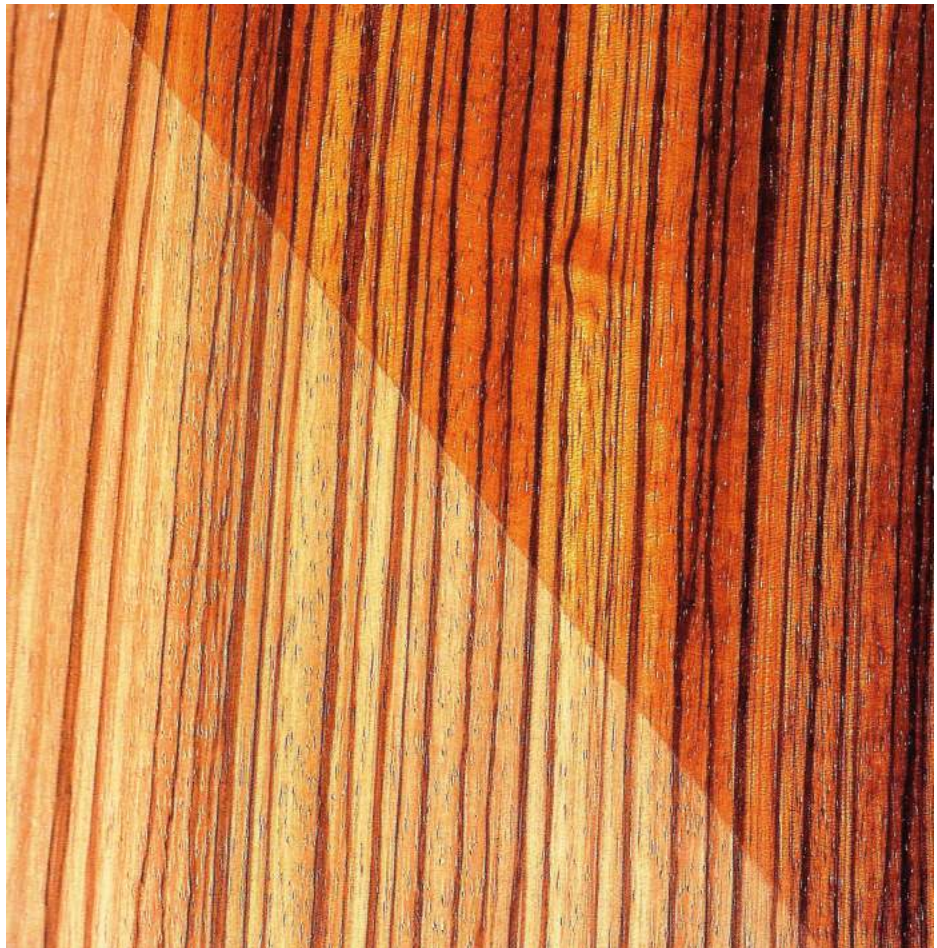

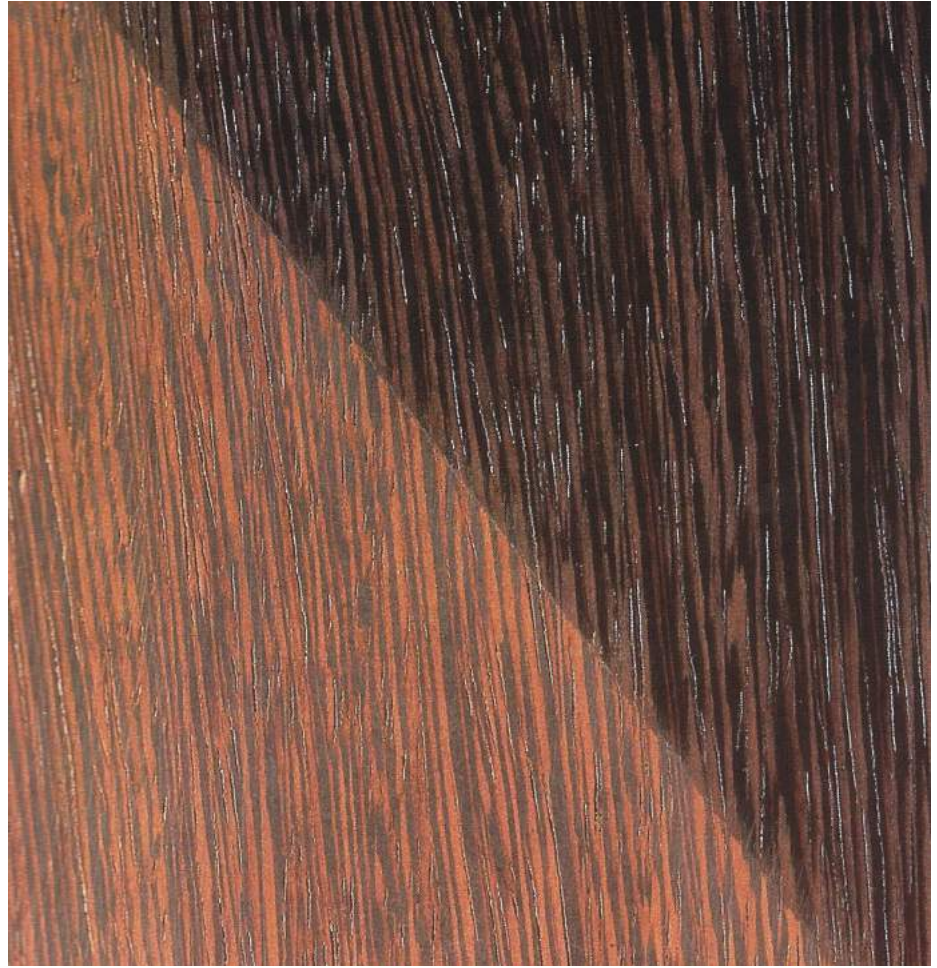

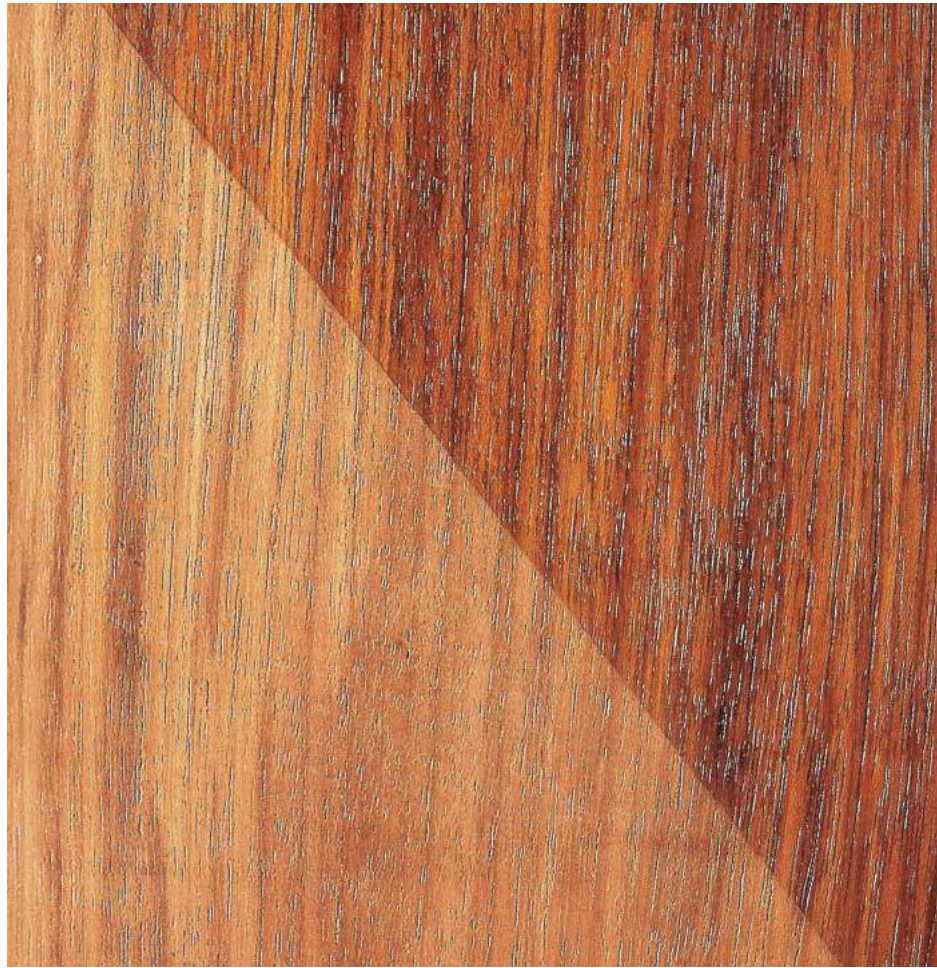

EXOTIC / TROPICAL COLLECTION WOODS

This layer is made of water resistant Baltic birch multiplex plywood. Wood Layers are positioned with their grains in opposite directions at 90° angle to minimize expansion and contraction under the influence of humidity and temperature changes. Plywood is three quarter sawed for an even better stability and lower wood tension.

WARRANTY

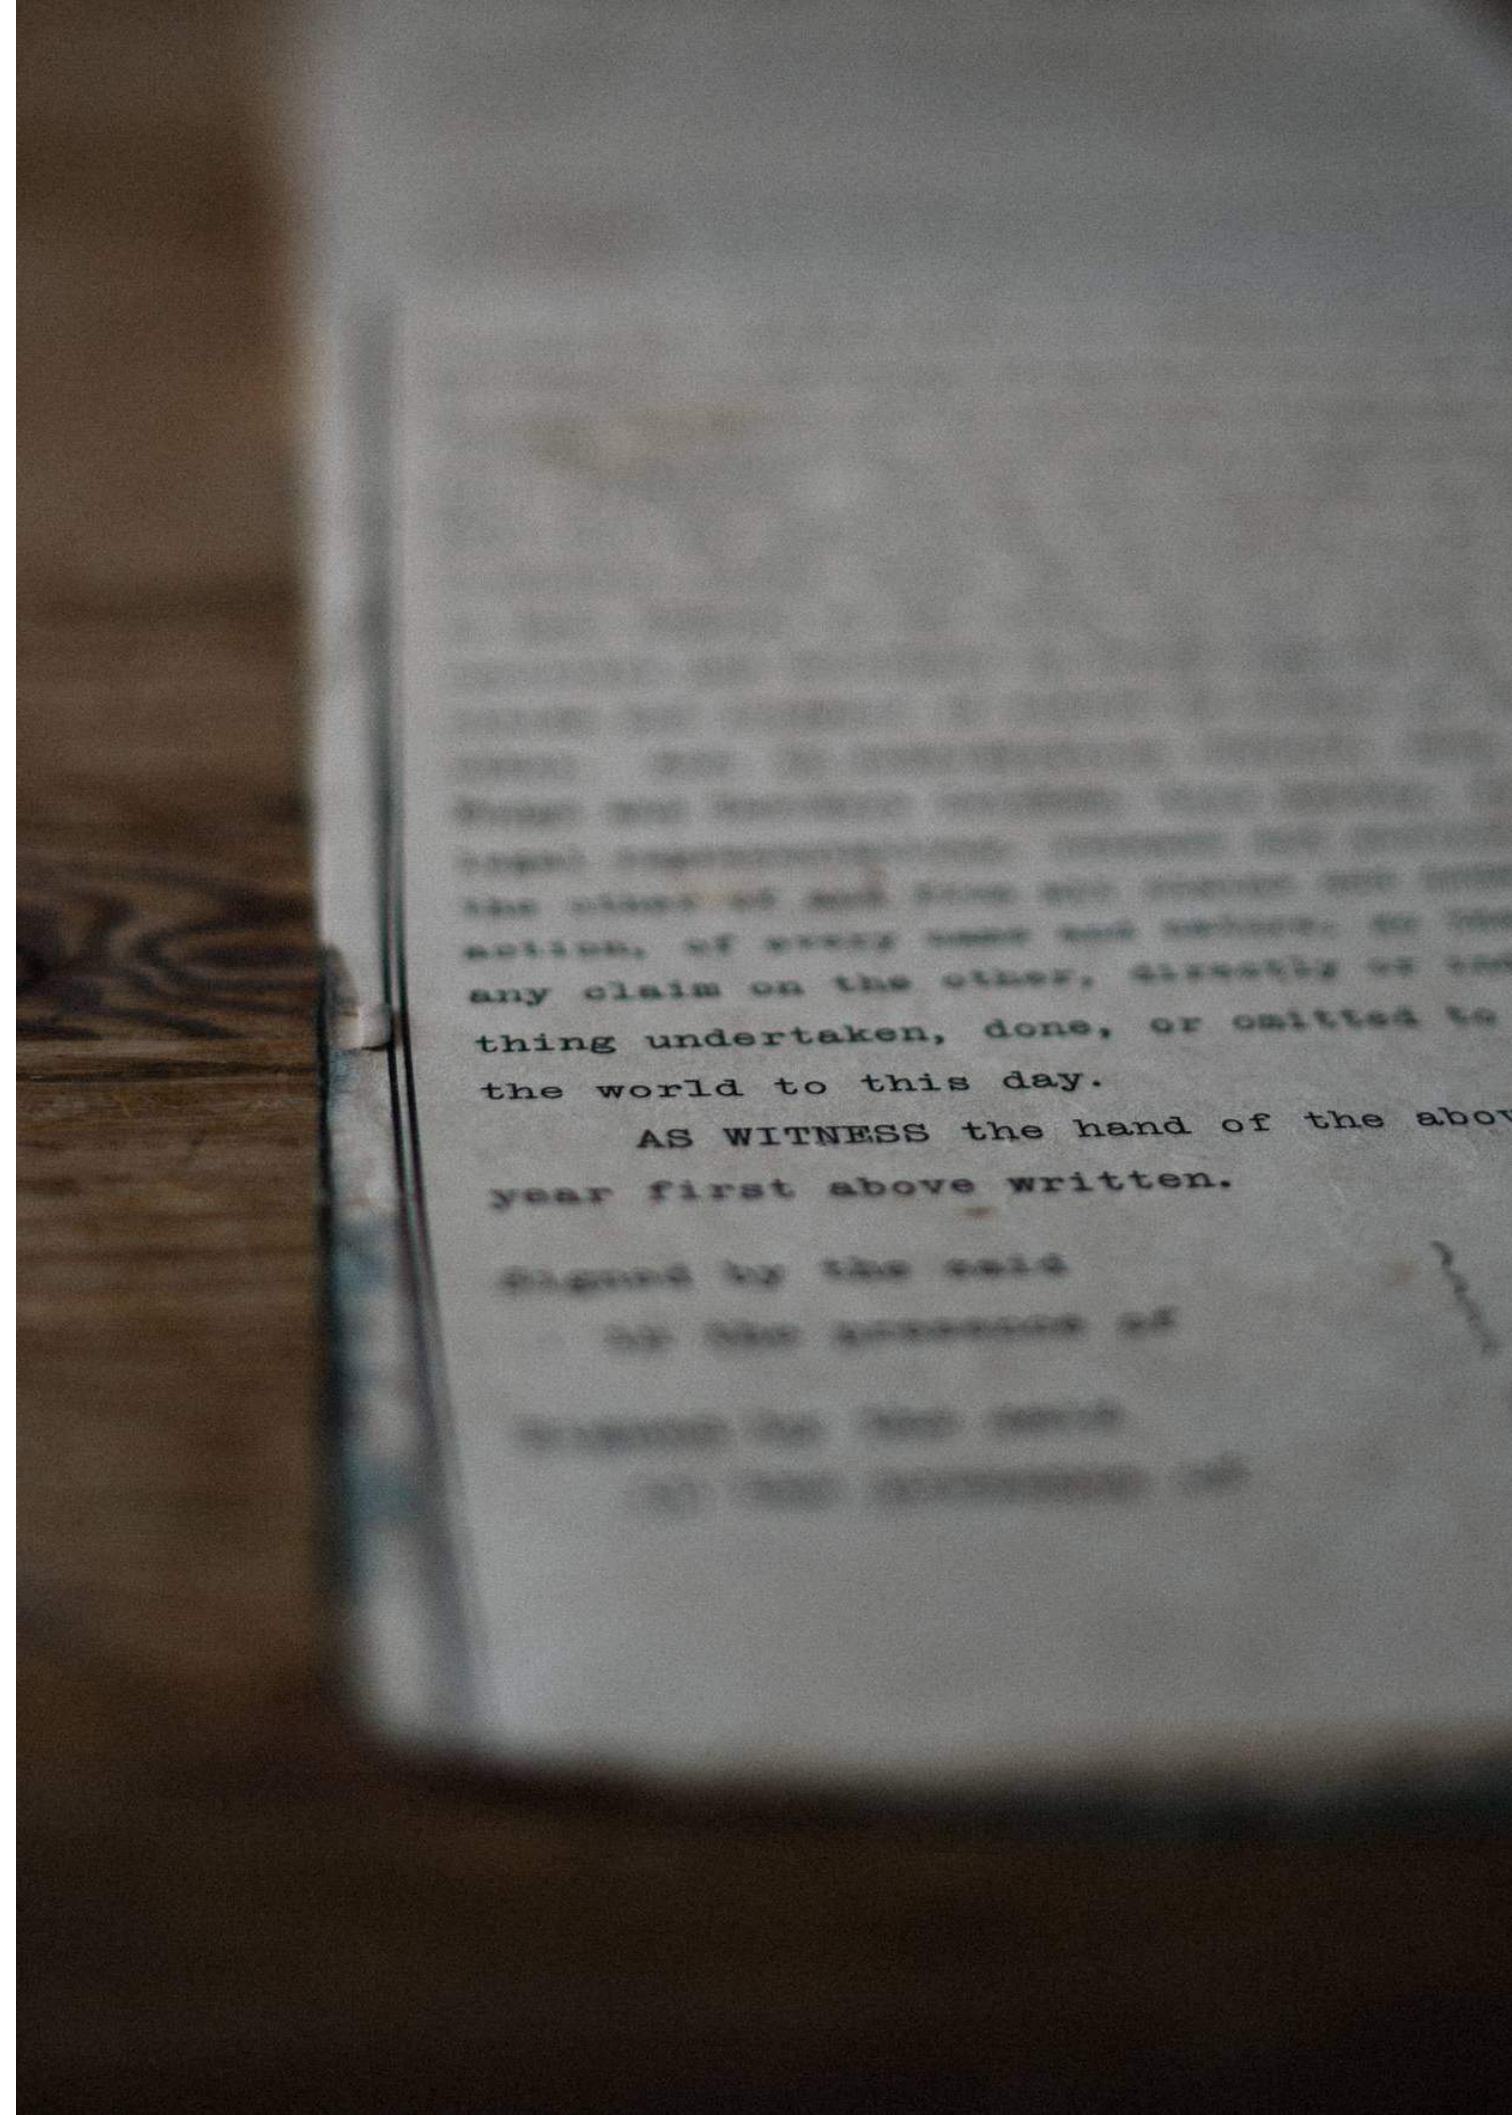

This layer is made of water resistant Baltic birch multiplex plywood. Wood Layers are positioned with their grains in opposite directions at 90° angle to minimize expansion and contraction under the influence of humidity and temperature changes. Plywood is three quarter sawed for an even better stability and lower wood tension.

COMMERCIAL

RESIDENTIAL

WE CARE ABOUT THE ENVIROMENT

Wood is a noble material, full of life that does not cease to surprise us, we constantly learn from it, we love it and respect it day a day. As a result of this combination we introduce three collections of top of the line engineered and parquet European floors, redefining the concept of elegance and style in the most natural way possible.

INSTALLATION

This layer is made of water resistant Baltic birch multiplex plywood. Wood Layers are positioned with their grains in opposite directions at 90° angle to minimize expansion and contraction under the influence of humidity and temperature changes. Plywood is three quarter sawed for an even better stability and lower wood tension.

MAINTENANCE

CARING FOR YOUR LACQUERED WOOD FLOOR WITH BONA
